

## CROWN GRILLS

### FEATURES AND BENEFITS

The superior range of functional grills are purpose built for the harsh marine environment and engineered to the highest quality. Constructed with many unique features, the Crown range sets itself apart from its competition and delivers the ultimate in BBQ experience.

Unique features of the range include a fully removable inner liner (no fixings), oversized S/S burner, full length fat tray, roasting hood, full sized radiant plate and fat deflector, built in mounting points and heavy duty construction.

The Crown Grills provides greater heat distribution (due to the full size radiant plate) and offers the ultimate flexibility when cooking a variety of foods. Suitable for use with LPG on-board gas systems or disposable 11b propane cylinders.
