

## LABCRAFT

### Callisto LED Downlighter

The Callisto is a stylish recessed down lighter offering a lightening solution for a multiple of applications. Utilising the latest in power LED the Callisto gives a super bright light without compromising on safety. The Callisto has a tough polycarbonate diffusion lens.

- Average current 0.10A
- Diameter 58mm, Cut out 38mm

Part No.	186585
----------	--------

### Star

An attractive range of down lighters finished in black, white or brass with a neat flush on off switch and 12V 10W halogen bulbs. A 90° rotational lens provides a directional light source. Suitable for reading or decorative lighting.

Part No.	Description
186586	12v Black
186587	12v White
186588	12v Brass

### Rondo 2

A traditional ceiling or bulk head light with 10W halogen bulb. The Rondo 2 is compact and easy to install. A white polycarbonate base with integrated rocker switch provides an attractive light fitting for most on board applications.

- Diameter 147mm

Part No.	186605
----------	--------

### Squarelight

A sturdy low profile light suitable for all applications. Compact but bright the 16W 2D format tube produces over 1,000 Lumens for high light output and low current. In either 12 or 24 Volt. Side mounted on off rocker switch with XT circuitry for extra tube life.

Part No.	186606
----------	--------

### Opal

The Opal range has been designed for a variety of applications. The stylish moulded polycarbonate shape is extremely robust. The 186580 9W Opal has a weather proof O-Ring seal (IP65). An XT pre-heat circuit is fitted as standard increasing the tube life by over 10 times. The base plate is pre drilled for mounting screws providing a neat secure installation.

Part No.	Description
186580	9w 12v
186581	21w 12v

### Orbit Series

Orbit is a new range of lighting products utilising the latest LED technology for super bright energy efficient lighting. Designed for ultra slim surface mounted solutions.

Moulded from tough polycarbonate that gives a subtle lighting effect. The on off touch switch eliminates the need for unsightly switches.

The Mini Orbit adds a matching down lighter option to the range.

- Orbit Diameter 130mm Cut out 64mm
- Mini Orbit Diameter 84mm Cut Out 64mm
- Orbital Overall Dimensions 100mm x 180mm

Part No.	Description
186600	Orbit
186601	Mini Orbit
186602	Orbital

### Batten Lights

T5 Batten light boasts extra light output and reliable performance, curved profile extruded aluminium chassis finished in white corrosion proof paint captures normally wasted light by up to 38%. Incorporates the XT Circuit allowing over a quarter of a million on off cycles without tube failure.

- Length for 186576 343mm
- Length for 186577 573mm

Part No.	Description
186576	8w
186577	13w

### Pearl

The Pearl range is a cost effective light, designed to complement any modern interior. Stylish but robust, makes it suitable for both leisure and working applications. An Opal coloured lens reduces glare and simply unclips to reveal the tube for easy maintenance. Fitted with a side mounted rocker switch.

- 186607 Length 427mm Width 45mm Height 35mm
- 186608 Length 655mm Width 45mm Height 35mm

Part No.	Description
186607	8w 12v
186608	13w 12v

### Linear Series

The Linear is the very latest in T5 fluorescent lights designed to enhance your boat interior. A high efficiency inverter produces very high levels of lights for the power consumed. Modern styling with ribbed diffuser to reduce glare. Simple clip on lens for easy tube replacement.

- Length 381mm, Width 78mm

Part No.	Description
186578	8w 12v Flu
186579	16w 12v Flu Light

**Trilite Series**

The Trilite offers you more flexibility, 1,2 or 3 8Watt tube options by simply adding or removing the tubes. Ultra low profile at only 24mm depth the Trilite uses a prismatic pattern for optimum light diffusion. Easy access flush rocker switch..

- Very low power (only 0.45A per 8W)
- Length 381mm, Width 78mm

- a: 1 Tube Light (8W)
- b: 2 Tube Light (2 x 8W)
- c: 3 Tube Light (3 x 8W)

Part No.	Description
186582	8w 12v
186583	16w 12v
186584	24w 12v

**Crystalite**

Crystalite lights offer a strong but cost effective light. Available in surface mount (186609) and flush mount (186610). The chassis is manufactured from aluminium with a clear diamond pattern light diffuser incorporating a push on off switch.

- 186609 Length 372mm Width 84mm
- 186610 Length 394mm Width 123.5mm

Part No.	Description
186609	16w 12v
186610	16w 12v recessed

**LM Series**

The LM is the latest addition to the Labcraft T5 range available in 8W and 16W versions. This light will give you a bright source of light whilst consuming very little power. Its slim profile allows installation in narrow spaces. The polycarbonate lens has an attractive cracked ice effect for even light diffusion.

- Length 380mm and Width 56mm (LM8) 85mm (LM16)

Part No.	Description
186603	8w 12v
186604	16w 12v

**Spiro**

The swivel housing design of the Spiro provides light in any area where a rotational directional light is required. 30 High intensity LEDs encapsulated in a water proof housing make this the perfect lighting solution for galleys, heads and shower areas. The LED strip is protected by a tough polycarbonate lens providing even light distribution. An on off rocker fits neatly into the end cap.

- Length 722mm Width 40mm Height 45mm

Part No.	186591
----------	--------

**LED Pole Light**

The LED pole light is the perfect solution for illuminating lockers, hanging areas, wardrobes etc. (Strong enough for hanging purposes) The LED Pole light utilises a 520mm LED Strip consisting of 30 high density LEDs in a waterproof housing.

- Length adaptable from 550 to 600mm
- Light output equivalent to 10w halogen

Part No.	186592
----------	--------

**Astro**

A revolutionary encapsulated weather proof LED light fitment, ideal for fly bridge and canopy lighting. Bright and energy efficient 1 metre of Astro will give 35 Lux, equivalent to a 10W halogen bulb but uses 5 x less power.

- Length 592mm Width 43mm Height 30mm

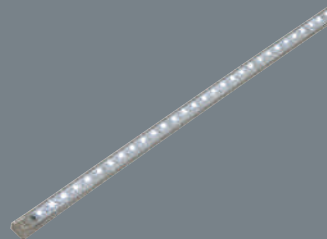

Part No.	186590
----------	--------

**Orion LED Strips**

Orions LED Strips are the ultimate in versatility. Low cost with 30 Cool White, high intensity encapsulated weatherproof LEDs (can be doubled to 60). The Orion provides an excellent spread of light using 5 x less power than the halogen equivalent and is ideal for both reading and decorative lighting solutions providing 35 Lux. Can be installed using adhesive strip.

- Length 520mm Width 18mm Height 11mm

Part No.	Description
186597	500mm LED strip
186598	1m LED strip

**LED Track and Socket System**

The Labcraft LED Track and Socket System is both adaptable and versatile, offering a choice of mounting systems. Designed for both decorative, reading and general lighting the power LEDs rota ball and flexi ball allow interchangeable positioning along the LTX500 Track. The LTX power socket allows for a single LED light of your choice to be installed.

- Power track length 50cm

Part No.	Description
186593	LED Track 50cm
186594	LED Socket
186595	Rota Ball
186596	Flexi Ball

**LED Lockerlite**

The neat LED Lockerlite has been designed for easy installation to illuminate storage areas and lockers or any area that requires a convenient battery light source. Incorporating the latest in LED technology the Lockerlite is supplied with 2 x 3V batteries and takes only a few seconds to install. Operated by a 7mm plunger on off system. Activated, for example by opening the locker door.

- Length 60mm Width 30mm Height 15mm

Part No.	186589
----------	--------
